Subject: Announcing a price change for Paragard®

Paragard Customer,

Effective July 1, 2021, the pricing of Paragard will change as outlined below.

Please take a moment to update any of your reimbursement, billing, and ordering systems to reflect this change.

PARAGARD NDC CODE:

HCPCS Code	Labeler	11 Digit NDC	NDC Effective Date	Product Description	WAC	Estimated AWP
J7300	COOPERSURGICAL	59365-5128-01	7/1/21	Carton of 1 (one) sterile Unit	\$937.00	\$1124.40

CooperSurgical is notifying all customers and business associates about this change and we would appreciate your partnership in helping us ensure that all systems and locations involved with Paragard are updated with the new Paragard pricing.

For any questions, contact CooperSurgical at 1.877.PARAGARD.

Paragard is a copper-releasing intrauterine system (IUS) that is used to prevent pregnancy.

- 100% hormone free and over 99% effective
- Lasts for up to 10 years, but can be removed at any time
- Immediately reversible; women can start trying to get pregnant the same day it's removed

Indication

Paragard is a copper-containing IUS (intrauterine system) indicated for the prevention of pregnancy for up to 10 years.

Important Safety Information

- Paragard must not be used by women who had a post-pregnancy or post-abortion uterine infection in the past 3 months; have cancer of the uterus or cervix; acute pelvic inflammatory disease (PID); an infection of the cervix; an allergy to any component (including copper); or Wilson's disease.
- If a woman misses her period, she must be promptly evaluated for ectopic pregnancy.
- Possible serious complications that have been associated with IUSs are PID, embedment, perforation of the uterus, and expulsion.
- Paragard must not be used by pregnant women as this can be life threatening and may result in loss of pregnancy or infertility.
- Menstrual cycles may become heavier and longer with intermenstrual spotting. Bleeding may be heavier than usual at first.
- **Paragard does not protect against HIV or STIs.**
